

# **IPL INTERNATIONAL SUMMER SCHOOL**

**IN SCIENCE AND ENGINEERING IN LYON,  
FRANCE**

---

JUNE 15 - JULY 13, 2023

APPLICATION DEADLINE: APRIL 15, 2023

## ACADEMIC PROGRAM

The program is designed for undergraduate students in Science and Engineering who have completed their first or second year of study and who expect to major in one of the disciplines of the four IPL engineering schools.

The program includes French language classes in different levels and science/engineering classes in English to be chosen from one of the 4 schools. Students also take part in industrial and cultural visits.

Digital sciences for chemical engineers

Agroecology and Alternative food systems in France

Energy and sustainability: industrial and regulatory context,

Polymer and Material Sciences engineering

## SOCIAL PROGRAM

The IPL International Summer School gives you the chance to experience the French higher education environment and learn or improve French language skills while discovering the beautiful city of Lyon.

It is also the opportunity to meet other university students from around the world and make friendships that will last a lifetime.

## ACCOMODATION

During the Summer School, students will stay at the residence hall "Jacques Cavalier"

The residence offers basic housing as follows:

- Single furnished rooms called "studettes" about 11m<sup>2</sup> with shower and toilet facilities in the room,
- Kitchen facilities and washing machines.

## FEES & ECTS

2150€\* accomodation included

*\*except ISARA for non-partner universities*

**9 ECTS**
