

International Staff Training Week 2012

<p>Jesus Gonzales Universidad Autonoma Madrid, Spain</p>	<p>I have discovered a nice place with nice people in this ISTW. It was very well organized and useful for me. It is worth coming to Clausthal and spent five days with university staff members from all over the world.</p>
<p>Manuela Galuppo University of Trento, Italy</p>	<p>TU Clausthal was a great discovery. I thank all the people in the IZC for their warmth, professionalism and the hail they gave us. The experience was so rich, unique and intense, that I will always recommend it to everyone. It was not only work, everything was interesting and perfectly organized, it was above all a human interchange.</p>
<p>Haraszti Virág Budapest University of Technology and Economics</p>	<p>I would like to thank all the perfectly organized events, every useful and illuminating presentation. Your town is adorable, not easy to reach but once you get there, you don't feel like leaving. Thanks for the open-minded and thought-provoking environment you guys created during the presentations, which encouraged us to share our own experiences freely.</p>
<p>Mercedes Ferber Universidad Autonoma Barcelona, Spain</p>	<p>The training week in Clausthal was just amazing. Everything was really well organized, and they made us feel from the beginning like we belonged there. Thank you very much for your generosity.</p>
