

## International Staff Training Week (ISTW) 2015

<p><b>Marta Koziarz</b> University of Economics in Katowice, Poland</p>	<p>It was a great experience to participate in the ISTW at TU Clausthal. Everything was perfectly organised and the IZC team made us all feel really welcome. All the presentations were very informative and inspiring, and the social programme was well-thought-out and gave us the opportunity to learn more about the beautiful area of Clausthal-Zellerfeld and Goslar. I would most definitely recommend the ISTW to others!</p>
<p><b>Huihui Liang</b> Zhejiang University, China</p>	<p>It is a really nice opportunity for me to meet colleagues from different countries and exchange experiences. The trip to Goslar is very nice and offers me a perspective of local history and people's life. I will definitely recommend it to anyone.</p>
<p><b>Hana Philippi</b> Brno University of Technology, Czech Republic</p>	<p>Participating in the ISTW was a great experience for me. ISTW offers the opportunity to share and discuss the issues concerning internationalization, student and staff mobility and also project and research issue. In my opinion Internationales Zentrum Clausthal provides a great service to students and staff and I definitely recommend to go to TU Clausthal. In addition to that Clausthal and its surroundings is beautiful and it is worth to see it.</p>
<p><b>Tobias Beilicke</b> Ecole Nationale Supérieure de Chimie de Clermont-Ferrand, France</p>	<p>The staff week in Clausthal has been a great opportunity to enhance international academic cooperation for all of us. The TU Clausthal team set up an interesting programm with a mix of working sessions and cultural events. I can only recommend TU Clausthal for an unforgettable exchange experience.</p>
<p><b>Radim Janča</b> Masaryk University, Czech Republic</p>	<p>I have spent amazing week at Clausthal university with friendly people from around the world. Everything was well prepared, and they even managed to order nice weather. I strongly recommend visiting TU Clausthal.</p>
